## Child Protection Advanced Course (Level 2)

This course is for those who have already completed a Level 1 course and need to gain an advanced knowledge of Child Protection, including working towards becoming a Designated Person or Child Protection Officer, manager or policy writer. Graffham Consulting Ltd certificate awarded.

### Course Benefits

The course will help you to recognise potential abuse and know what to do if you are worried about a child. It aims to take a deeper look at child protection issues, signs of abuse and neglect and provides advanced information on reporting strategies, policies and procedures. It also covers: Safe environments, safeguarding practices, reporting and referring to external agencies, legislation and its relationship to day-to-day activity. The course includes a step-by-step toolkit to help you work towards good practice including staff and volunteer recruitment, child protection and human resources policies. Broaden your knowledge of child protection issues, spot warning signs, know how to report and refer and understand your role.
